CONTENTS OF VOLUME 120

Vol. 120B, No. 1

Symposium Honouring C. Richard Taylor

Symposium Articles

P. W. Hochachka 1 A scholar's scholar from the golden age of science

G. Goldspink 5 Selective gene expression during adaptation of muscle in response to different physiological demands

P. W. Hochachka, G. B. McClelland, G. P. Burness, J. F. Staples and R. K. Suarez 17 Integrating metabolic pathway fluxes with gene-to-enzyme expression rates

J. Eduardo, P. W. Bicudo and J. G. Chaui-Berlinck 27 Locomotion and thermogenesis in hummingbirds

S. L. Lindstedt, T. McGlothlin, E. Percy and J. Pifer 35 Task-specific design of skeletal muscle: balancing muscle structural composition

R. Kram and T. J. Dawson 41 Energetics and biomechanics of locomotion by red kangaroos (*Macropus rufus*)

L. C. Rome 51 Some advances in integrative muscle physiology

A. A. Biewener 73 Muscle-tendon stresses and elastic energy storage during locomotion in the horse

G. A. Brooks 89 Mammalian fuel utilization during sustained exercise

M. J. Kushmerick 109 Energy balance in muscle activity: Simulations of ATPase coupled to oxidative phosphorylation and to creatine kinase

J. H. Jones 125 Optimization of the mammalian respiratory system: symmorphosis versus single species adaptation

General Papers

O. Meunpol, M. R. Hall and V. Kapoor 139 Partial characterisation and distribution of kynurenine aminotransferase activity in the Black Tiger prawn (*Penaeus monodon*)

R. D. Nagle, V. J. Burke and J. D. Congdon 145 Egg Components and Hatchling Lipid Reserves: Parental Investment in Kinosternid Turtles from the Southeastern United States

T. Sayd, T. Mera, V. Martin and E. Laville 153 Spatial distribution of myosin heavy chain isoforms and lactate dehydrogenase M_4 in the limb musculature of two crossbred lambs

S. B. Smith, K. C. Lin, J. J. Wilson, D. K. Lunt and H. R. Cross 165 Starvation depresses acylglycerol biosynthesis in bovine subcutaneous but not intramuscular adipose tissue homogenates

Y.-S. Cho, M.-K. Han, O.-S. Kwark, M. S. Phoe, Y.-S. Cha, N.-H. An and U.-H. Kim 175 Auto-ADP-ribosylation of NAD glycohydrolase from *Neurospora crassa*

Y. Enoki, Y. Ohga and H. Ishidate 183 Isolation and properties of myoglobins from rat (*Rattus norvegicus*) skeletal muscles

S. Overney, S. Yelle and C. Cloutier 191 Occurrence of Digestive Cysteine Proteases in *Perillus bioculatus*, a Natural Predator of the Colorado Potato Beetle

H. Ihara, T. Uemura, M. Masuhara, S. Ikawa, Kenji Sugimoto, A. Wadano and M. Himeno 197 Purification and partial amino acid sequences of the binding protein from *Bombyx mori* for CryIAa δ-endotoxin of *Bacillus thuringiensis*

P. A. Mericko and K. G. Burnett 217 Evidence for multiple protein kinase C isoforms in the leukocytes of a marine teleost, *Sciaenops ocellatus*

Instructions to Authors

Vol. 120B, No. 2

General Papers

R. Stradi, J. Hudon, G. Celentano and E. Pini 223 Carotenoids in bird plumage; the complement of yellow and red pigments in true woodpeckers (Picinae)

R. Käkelä and H. Hyvärinen 231 Composition of polyunsaturated fatty acids in the liver of freshwater and marine ringed seals (*Phoca hispida* ssp.) differs largely due to the diet of the seals

L. Fiorucci, M. Pallaoro, F. Erba, A. P. Colombo, M. Rholam, P. Cohen and F. Ascoli 239 Structural and functional properties of *Bos taurus* tryptase: a search for a possible propeptide processing role

W. R. Patterson, L. M. Dalton and D. L. McGlasson 247 A comparison of human and killer whale platelet fatty acid composition

P. Robson, F. Li, J. H. Youson and F. W. Keeley 253 Identification and characterization of a serpin with differential expression during the life cycle of the sea lamprey

J. Pickova, A. Kiessling, A. Pettersson and P. C. Dutta 265 Comparison of fatty acid composition and astaxanthin content in healthy and by M74 affected salmon eggs from three Swedish river stocks

H. H. Sunwoo, T. Nakano, R. J. Hudson and J. S. Sim 273 Isolation, characterization and localization of glycosaminoglycans in growing antlers of wapiti (*Cervus elaphus*)

G. Wu, M.-I. Chung-Bok, N. Vincent, T. J. Kowalski, Y.-H. Choi and M. Watford 285 Distribution of phosphate-activated glutaminase isozymes in the chicken: absence from liver but presence of high activity in pectoralis muscle

O. Mjaavatten, C. D. Levings and P. Poon 291 Variation in the fatty acid composition of juvenile chinook and coho salmon from Fraser river estuary determined by multivariate analysis; role of environment and genetic origin

C. F. Phleger, P. D. Nichols and P. Virtue 311 Lipids and trophodynamics of Antarctic zooplankton

M. E. White, M. R. Hathaway, A. J. Lepine and W. R. Dayton 325 Identification and characteristics of a 37 000 M_r insulin-like growth factor binding protein in canine serum

C.-H. Huang, M.-C. Huang and P.-C. Hou 331 Effect of dietary lipids on fatty acid composition and lipid peroxidation in sarcoplasmic reticulum of hybrid tilapia, *Oreochromis niloticus* × *O. aureus*

V. A. Stonik, L. P. Ponomarenko, T. N. Makarieva, V. M. Boguslavsky, A. S. Dmitrenok, S. N. Fedorov and S. A. Strobikin 337 Free sterol compositions from the sea cucumbers *Pseudostichopus trachus*, *Holothuria* (*Microtele*) *nobilis*, *Holothuria scabra*, *Trochostoma orientale* and *Bathyplotes natans*

T. A. Coudron, A. Raqib, S. L. Brandt and M. Knop Wright 349 Comparison of the hemolymph proteins in permissive and non-permissive hosts of *Euplectrus comstockii*

X. Shi, M. Chen, P.E. Huvos and P. M. D. Hardwicke 359 Amino acid sequence of a Ca^{2+}-transporting ATPase from the sarcoplasmic reticulum of the cross-striated part of the adductor muscle of the deep sea scallop: comparison to serca enzymes of other animals

M. V. Savina and N. L. Gamper 375 Respiration and adenine nucleotides of Baltic lamprey (*Lampetra fluviatilis* l.) hepatocytes during spawning migration

K. Kikuchi, S. Watabe and K. Aida 385 Isolation of a 65-kDa protein from white muscle of warm temperature-acclimated goldfish (*Carassius auratus*)

S. Akiba, C. Dodia, X. Chen and A. B. Fisher 393 Characterization of acidic Ca^{2+}-independent phospholipase A_2 of bovine lung

M. Branco and N. Ferrand 405 Genetic polymorphism of rabbit *(Oryctolagus cuniculus)* tissue acid phosphatases (ACP2 and ACP3)

K.-i. Nakamura, K. Kawaoka, M. Yasuda and T. Suzaki 411 Comparison of axonemal proteins from two species of *Tetrahymena*. II. Difference in heat stability of microtubules

J. A. Stuart, E.-L. Ooi and J. S. Ballantyne 417 Maximal activities of enzymes of intermediary metabolism in the estivating terrestrial snail *Cepaea nemoralis*

D. Abele, B. Burlando, A. Viarengo and H.-O. Pörtner 425 Exposure to elevated temperatures and hydrogen peroxide elicits oxidative stress and antioxidant response in the Antarctic intertidal limpet *Nacella concinna*

Instructions to Authors

Vol. 120B, No. 3

Review

M. Hermes-Lima, J. M. Storey and K. B. Storey 437 Antioxidant defenses and metabolic depression. The hypothesis of preparation for oxidative stress in land snails

General Papers

T. Ohkubo, A. Tsukada, M. Tanaka and K. Nakashima 449 Cloning and expression of pigeon growth hormone receptor cDNA in COS-7 monkey kidney cells

G. Mourente and E. Díaz-Salvago 457 Lipid composition and oxidation status in brain of wild-caught size-class distributed *Parapenaeus longirostris* (Lucas, 1846)

G. Zwingelstein, J. Bodennec, G. Brichon, N. Abdul-Malak, S. Chapelle and M. El Babili 467 Formation of phospholipid nitrogenous bases in euryhaline fish and crustaceans. I. Effects of salinity and temperature on synthesis of phosphatidylserine and its decarboxylation

G. Zwingelstein, G. Brichon, J. Bodennec, S. Chapelle, N. Abdul-Malak and M. El Babili 475 Formation of phospholipid nitrogenous bases in euryhaline fish and crustaceans. II. Phosphatidylethanolamine methylation in liver and hepatopancreas

F. San Juan Serrano, J. L. Sanchez Lopez and L. O. Garcia Martin 483 ATP and energy charge regulate glycogen phosphorylase from *Mytilus galloprovincialis* mantle

L. N. Katyukhin, A. M. Kazennov, M. N. Maslova and Y. A. Matskevich 493 Rheologic properties of mammalian erythrocytes: relationship to transport AT-Pases

N. V. Zhukova, A. B. Imbs and L. F. Yi 499 Diet-induced changes in lipid and fatty acid composition of *Artemia salina*

L.-A. Stanton, M. van de Venter and W. Oelofsen 507 The influence of plasma lipoprotein subfractions on 3T3-L1 and human preadipocyte differentiation in cell culture

V. Guyard-Dangremont, C. Desrumaux, P. Gambert, C. Lallemant and L. Lagrost 517 Phospholipid and cholesteryl ester transfer activities in plasma from 14 vertebrate species. Relation to atherogenesis susceptibility

P. F. Surai, E. Blesbois, I. Grasseau, T. Chalah, J.-P. Brillard, G. J. Wishart, S. Cerolini and N. H. C. Sparks 527 Fatty acid composition, glutathione peroxidase and superoxide dismutase activity and total antioxidant activity of avian semen

K. Simpson, D. Shaw and K. Nicholas 535 Developmentally-regulated expression of a putative protease inhibitor gene in the lactating mammary gland of the tammar wallaby, *Macropus eugenii*

B. Kumar, S. M. Francis, J. M. Suttie and M. P. Thompson 543 Expression of obese mRNA in genetically lean and fat selection lines of sheep

L. S. Erlendsson and H. Filippusson 549 Purification and characterization of ovine pancreatic elastase

G. J. Hoover, A. El-Mowafi, E. Simko, T. E. Kocal, H. W. Ferguson and M. A. Hayes 559 Plasma proteins of rainbow trout *(Oncorhynchus mykiss)* isolated by binding to lipopolysaccharide from *Aeromonas salmonicida*

J. McCarroll, M. Thomson, J. Ashes, E. Fleck and G. P. M. Moore 571 Dietary fat manipulation and signal transduction in ovine skin

K. Nagao, S. Yoshida, H. Nakagiri, M. Sakono, M. Sato and K. Imaizumi 579 Gemfibrozil reduces non-high-density lipoprotein cholesterol in exogenously hypercholesterolemic (ExHC) rats fed a high-cholesterol diet

P. Sithigorngul, W. Saraithongkum, S. Jaideechoey, S. Longyant and W. Sithigorngul 587 Novel FMRFamide-like neuropeptides from the eyestalk of the giant freshwater prawn *Macrobrachium rosenbergii*

S. Mizuta, T. Miyagi and R. Yoshinaka 597 Characterization of a major alpha component of collagen from muscle of antarctic krill *Euphausa superba*

M. Gollub, R. Schauer and L. Shaw 605 Cytidine monophosphate-*N*-acetylneuraminate hydroxylase in the starfish *Asterias rubens* and other echinoderms

B. J. Mans, A. R. M. D. Gaspar, A. I. Louw and A. W. H. Neitz 617 Purification and characterization of apyrase from the tick, *Ornithodoros savignyi*

Instructions to Authors

Vol. 120B, No. 4

M. Masetti, A. Cecchettini and F. Giorgi 625 Mono- and polyclonal antibodies as probes to study vitellin processing in embryos of the stick insect *Carausius morosus*

S. Suchail, M. E. Sarciron and A. F. Petavy 633 Purine metabolism in *Echinococcus multilocularis*

I. Knuesel, S. Murao, T. Shin, T. Amachi and H. Kayser 639 Comparative studies of suidatrestin, a specific inhibitor of trehalases

H. Mashiko, K.-i. Miyamoto and H. Takahashi 647 Studies on porcine high molecular weight kininogen. An improved method for the purification of porcine high molecular weight kininogen and cleavage of the kininogen by the action of porcine plasma kallikrein

S. S. Mahmoud, S. Wang, M. M. Moloney and H. R. Habibi 657 Production of a biologically active novel goldfish growth hormone in *Escherichia coli*

T. Kusakabe, K. Motoki, Y. Sugimoto and K. Hori 665 Role of isozyme group-specific sequence 4 in the isozyme-specific properties of human aldolase C

J. C. Luft, E. Bengtén, L. W. Clem, N. W. Miller and M. R. Wilson 675 Identification and characterization of the tumor suppressor p53 in channel catfish (*Ictalurus punctatus*)

P. I. Castagnet, M. E. Roque, S. J. Pasquaré and N. M. Giusto 683 Phosphorylation of rod outer segment proteins modulates phosphatidylethanolamine N-methyltransferase and phospholipase A_2 activities in photoreceptor membranes

A. Usmanova, C. Astier, C. Méjean, F. Hubert, J. Feinberg, Y. Benyamin and C. Roustan 693 Coevolution of actin and associated proteins: an α-actinin-like protein in a cyanobacterium (*Spirulina platensis*)

G. R. Franco, M. Tanaka, A. J. G. Simpson and S. D. J. Pena 701 Characterization of a *Schistosoma mansoni* homologue of the gene encoding the breast basic conserved protein 1/L13 ribosomal protein

M. J. Almeida, J. Machado, M. A. Vieira Coelho, P. Soares da Silva and J. Coimbra 709 L-3,4-Dihydroxyphenylalanine (L-DOPA) secreted by oyster (*Crassostrea gigas*) mantle cells: functional aspects

D. Pouliquen, M.-H. Omnes, F. Seguin and J.-L. Gaignon 715 Changes in the dynamics of structured water and metabolite contents in early developing stages of eggs of turbot (*Psetta maxima*)

P. J. Crack, T. Tetaz and A. I. Smith 727 Purification, characterisation and distribution of ovine neuronal nitric oxide synthase

B. J. Frey, R. E. Weber, W. J. van Aardt and A. Fago 735 The haemoglobin system of the mudfish, *Labeo capensis*: adaptations to temperature and hypoxia

G. Peters, R. Saborowski, R. Mentlein and F. Buchholz 743 Isoforms of an *N*-acetyl-β-D-glucosaminidase from the Antarctic krill, *Euphausia superba*: purification and antibody production

T. Nomura, M. Tazawa, M. Ohtsuki, C. Sumi-Ichinose, Y. Hagino, A. Ota, A. Nakashima, K. Mori, T. Sugimoto, O. Ueno, Y. Nozawa, H. Ichinose and T. Nagatsu 753 Enzymes related to catecholamine biosynthesis in *Tetrahymena pyriformis*. Presence of GTP cyclohydrolase I

M. Iwanaga, N. Dohmae, A. Fonagy, K. Takio, H. Kawasaki, S. Maeda and S. Matsumoto 761 Isolation and characterization of calmodulin in the pheromone gland of the silkworm, *Bombyx mori*

P. Takáč, J. S. B. Ahl and H. Laufer 769 Methyl farnesoate binding proteins in tissues of the spider crab, *Libinia emarginata*

R. K. Packer and J. L. Garvin 777 Seasonal differences in activity of perch (*Perca flavescens*) gill Na^+/K^+ ATPase

C. Yuan, H. Chen, R. E. Anderson, O. Kuwata and T. G. Ebrey 785 The unique lipid composition of gecko (*Gekko Gekko*) photoreceptor outer segment membranes

R. Q. Monteiro, D. L. S. Dutra, O. L. T. Machado, C. R. Carlini, J. A. Guimarães, C. Bon and R. B. Zingali 791 *Bothrops jararaca* snakes produce several bothrojaracin isoforms following an individual pattern
